INTRODUCTION

The University of Missouri and the Department of Recreation Services and Facilities Policies and Procedures Handbook is in place to ensure that all club sports are treated equitably. This is a supplement to any University of Missouri student policies and procedures (outlined for student organizations in the Guidelines for Recognized Student Organizations). Policies and procedures of the University of Missouri and MizzouRec Services and Facilities supersede all club policies, procedures, constitutions, by-laws, etc. Additionally, all sections of the Policies and Procedures Handbook are subject to change at any time. Should changes take place, all club sport student organizations will be notified.

The University of Missouri Club Sports Program consists of recognized student organizations categorized as Club Sports that comprise the Mizzou Club Sports Federation (MCSF), and directly governed by the Sports & Competition student staff, the Sports & Competition professional staff and the Mizzou Club Sports Federation (MCSF) Executive Committee. All participants of Clubs Sports should be aware of risks involved within their interest area, and participation in a Club Sport is voluntary to all eligible students, faculty and staff of the University of Missouri. Membership and participation in a Club Sport is free from discrimination on the basis of race, color, national origin, ancestry, religion, sex, sexual orientation, gender identity, gender expression, age, disability or protected veteran status.

DEFINITION OF A CLUB SPORT

*Club Sports are student-led organizations that often travel to compete against other collegiate club teams from around the region and nation. Some are highly competitive in nature and aim to provide both a rewarding experience and opportunity for **athletic excellence and personal growth**. Others may be more recreational or instructional in nature, providing members an opportunity to learn a new skill and to socialize. All club sport organizations at the University of Missouri are administered by MizzouRec and comprise the Mizzou Club Sports Federation, MCSF, which seeks to develop student leadership, promote student participation in various physical and athletic activities, promote healthy lifestyles, foster campus and community involvement, and create a community atmosphere between club sports teams.*

- *Student led with oversight from MizzouRec Staff*
- *Additional requirements of Mizzou Club Sports Federation (MCSF)*
- *Utilize a unique brand separate from the University of Missouri Athletic Department approved by Licensing and Trademark*
- *Utilize MizzouRec facilities and properties for meeting space as well as practice/competition when applicable*
- *Club generated funds (dues, fundraising, etc.) are kept in external bank account (U.S. Bank)*
- *MizzouRec allocations (when applicable) are kept in the MizzouRec Club Sports operating budget and can only be accessed with Sports & Competition professional staff approval*
- *Officer Trainings required for each Officer position (President, VP, Treasurer, Risk Manager, Social Media Chair)*
- *May be an active member of a National/Regional Governing Body for their Collegiate Club Sport*

What is a competition? A competition is an event or contest in which Mizzou club members and club teams compete against external competitors that may be members of other collegiate clubs, or general participants.

How does a Club Sport differ from Intramural Sports and Athletics? Intramural Sports are internal competitions held against other Mizzou students. Club Sports are external competitions between other academic institutions. Club Sports are not intercollegiate athletic or NCAA affiliated, Club Sports do not serve as the university varsity sport programs.

(MCSF) PURPOSE

The purpose of the Mizzou Club Sports Federation is to:

- Develop student leadership through involvement in public relations, organization, administration, budgeting and scheduling
- Professional development for general members
- Promote student participation in various physical and athletic activities
- Promote healthy lifestyles
- Emphasize campus and community involvement amongst club members
- Create relationships between Club Sports participants

While the MizzouRec Services and Facilities assists in the development and growth of the MCSF, the emphasis of the program is on student leadership and involvement of all club members. The existence of each club sport and the success of the MCSF are dependent upon student interest and commitment from all club members.

CLUB FUNDING

All Club Sports operate a budget each year. Whether it is privately raised funds from dues or funding from the University, each club is accountable for every dollar earned and every dollar spent.

Funding Sources

Although club sports organizations are eligible to receive funding through the University via the MCSF, each club should strive to become financially independent. Funding for club sports typically come from the following sources:

- Membership dues
- Fundraising activities
- Student fee allocation from MCSF (through the budget allocation process).

Athletic scholarships are not awarded by MizzouRec Services and Facilities for Club Sport participation.

MizzouRec's External Relations Coordinator has developed a "toolkit" for clubs to utilize to seek sponsorships and donations.

Misuse of Organization Funding

Regardless if funding was generated through fundraisers or through University funding, all organization funding should be used in order to achieve the organization's goals. Funds cannot be used for private or individual uses such as personal lunches and trips. The Club Treasurer should be aware of all income and expenses and must report the information to the Club President. Misuse of funding should be reported to the Sports & Competition professional staff immediately. Club funds should always be used to benefit the club. Any use of funds that limits this benefit to a few individuals rather than the organization is considered a misuse of funds.

Membership Dues

Membership dues amounts vary depending on what the needs are for each organization. The amounts and deadlines are chosen by the club officers based on the number of members, what other forms of income are in place as well as variables such as competition schedules, travel expenditures, equipment needs, etc. Specifics involving the process of determining club dues amount, payment methods, and the reimbursement process should all be included in the club's constitution. Dues may not be collected on University property according to the University's Guidelines for Recognized Student Organizations policy.

Fundraising

Most all club sports participate in some form of fundraising whether it be selling t-shirts, hosting tournaments or sending out solicitation letters. Fundraising is mandatory to be eligible to receive funding from the University. When fundraising, all club sports must stay in compliance with the following policies:

- Follow all Guidelines for Recognized Student Organizations policies
- Get prior approval from the Club Sports professional staff prior to hosting fundraiser
- Alcohol cannot be present at any club sport fundraiser
- Follow all applicable federal and state laws

- Fundraiser Report must be submitted within **one** of event completion with attached documentation (deposit receipt) proving revenue was collected for fundraising amounts to be counted towards total fundraising amounts for tier classification applications
- Only the profit of each fundraiser will count towards fundraising total
- Clubs will only be eligible to receive allocations up to the amount fundraised

Pre-Approved Fundraising Events

Clubs must still ask permission before participating in these events. However, these events are typically approved through the program.

- Profit Sharing
- Merchandise and Apparel Sales
- Membership Dues
- Games and Tournaments
- Canning (asking for money without selling a tangible product or service) through the Student Union
 - Clubs must apply through Student Org and the event must be approved and staffed by a Student Union employee
 - Clubs may also apply through the city of Columbia to collect funds off-campus

Donations and Sponsorships

- **All Sponsorships must be approved by the Assistant Director for Sports & Competition and External Relations Coordinator**
- Sponsors and sponsorships are a great way of fundraising for a club sport. Most businesses designate a portion of their budget specifically for sponsorships and donations.

MCSF Executive Committee Funds

- Clubs may apply for additional funds held through the Executive Committee. These funds are to be requested for unforeseen club expenses.
- These expenses include but are not limited to:
 - National championships
 - Equipment
 - Clubs that do not receive allocations may apply for these funds as long as they have maintained a good standing status with the University and MCSF and have been active for at least one academic semester.
 - Can only be requested for regional/national competition per the discretion of the Club Sports professional staff
- The Club Sports general fund balance is subject to fluctuate throughout the year depending on the amount of club requests, amount awarded to clubs, and club penalties during the fiscal year
- All club penalties are deposited back into the Club Sports general fund account

Tax ID or Employee Identification Number (EIN)

- Every club has a Tax ID or EIN. These are similar to social security numbers, but instead they are for groups of individuals. It establishes your group as a separate business entity for the IRS. Contact US Bank to acquire this information for the Club account. New clubs should contact the Club Sports Business Manager for assistance in obtaining a Tax ID number.

Tax Exempt Status

- All student organizations are separate legal entities from the University of Missouri, and are therefore not eligible to claim the University's tax exempt status. Your group can apply for 501 (c) (3) tax exemption, but ORG does not recommend it. Many groups come to us each year and let us know that they would like to

become non-profits. Very few actually benefit from completing the process. It requires a lengthy application and significant fee (\$450-\$850 depending on gross receipts) in addition to raising your profile with the IRS. Depending on each club's situation, the drawbacks can outweigh the benefits.

- Clubs that wish to file a tax exempt status should consult with the Assistant Director for Sports & Competition
- This process is labor intensive and expensive but it can be beneficial to clubs that bring in \$10,000 or more a year

Cash

- The use of cash is strongly discouraged. Clubs should not accept cash as payment. They should not withdraw cash from their bank account. They should not pay for any services or items with cash. The reason for this is there is no paper trail with cash. Cash transactions cannot be tracked and can lead to complications when budgeting or handling a refund. In the rare instance where cash is being handled a receipt should always be written or recorded.
- The use of Venmo, Zelle, etc. are also strongly discouraged.

Budget Allocation Process

Clubs are required to submit a Budget Request to ensure that the clubs have a financial plan for the use of University funds. These requests are also used to ensure that University funds are managed and spent appropriately. All requests are to be submitted through Engage by the given deadline. Typed or handwritten requests will not be accepted.

- **Preparing/Submitting Budget Request**
 - Club sport officers review the budgetary needs of the club, create the budget request and then submit the Budget Request on the given deadline provided on the Club Sports Calendar
- **Review**
 - The MCSF Executive Committee and/or MizzouRec professional staff reviews the submitted documentation
 - The MCSF Executive Committee and/or MizzouRec professional staff may require a club to formally present their budget requests and/or full organization budget (IE: Revenue and Expenditures) to the committee.
 - Budgets that do not include proper documentation or incorrect information will not be approved

General Budget Request Information

- Base level of allocation funding varies depending on tier level and fundraising totals
- Funding must be used for the purpose it was allocated for
- Reallocation of funding for purposes other than what the funding was originally approved for must be approved by the Assistant Director for Sports & Competition
- Only clubs that are eligible to receive University funding should complete a Budget Request
 - Tier 5 clubs do not need to complete this
 - Please communicate with the Sports & Competition professional staff and the Business Manager to obtain clarification of your club's status and need for request
- Only University funds (allocations) need to be budgeted in the request. This request should not include financial plans for US Bank club funds, unless you would like to submit an overall budget for potential tier points.

Accessing Allocations

- **General Purchasing Guidelines**
 - The reimbursement process can take 3-4 weeks. Multiple club purchases in a small span of time can cause the club to run low on US Bank funds while waiting for reimbursements to process.
 - Be sure to allow adequate time between when requesting to purchase items from the Assistant Director for Sports & Competition and when the item is needed
 - All purchases and reimbursements must be approved by the Assistant Director for Sports & Competition
 - If reimbursement route is required, speak with Assistant Director for Sports & Competition prior to making purchase or sending payment (See Reimbursements)
 - Keep receipts for all purchases as only original receipts will be accepted
 - All reimbursements requests and documents must be submitted to the Club Sports within 30 days of purchase
 - Multiple reimbursement requests for one trip is not allowed (I.E. reimbursing the club one week after the trip, then club member requests reimbursement 3 weeks after trip. Must be submitted at the same time)
 - Personal reimbursement will require individuals to give personal information, including their social security number, to the Business Office in order to set up a new account
 - All equipment purchases made from University accounts become the property of the University All equipment must be marked so as to identify it as University property
 - Marking should include Mizzou, or MU and Club name. IE: Soccer Balls: Mizzou Men's Club Soccer or MU Club Men's Soccer

Reimbursements

Reimbursement items are those for which a club sport has been approved funding but the club pays the money up-front and is reimbursed for expenses later with club allocations. Prior approval is still required before purchasing. This is to ensure items purchased are eligible for reimbursement later. For each of the following types of reimbursements the club will need to attach the necessary documents, which are also listed next to each type of reimbursement.

- **General**
 - MizzouRec reimburses CLUBS, not CLUB MEMBERS. It is up to the club's officers to distribute any reimbursements to individual members, when applicable.
 - Reimbursement can take a **MINIMUM of 3 weeks**. Plan ahead and budget accordingly.

- A Competition Form must be submitted prior to club trip in order to be eligible for reimbursement. If the above form is not submitted, the club will not be reimbursed for any expenses incurred.
- Students who work for the university will be direct deposited all reimbursements
- **Mileage**
 - Club members will be reimbursed for mileage at \$0.65 per mile when personal vehicles are involved in club travel
 - Since the reimbursement covers wear and tear, only the vehicle owners listed will receive mileage reimbursement
 - Mileage is intended to cover “wear and tear” on personal vehicles
 - Gas receipts are not necessary to reimburse for mileage
 - EXCEPTION: Boat gas reimbursements do require actual receipts
 - For reimbursement, a Travel Expense Form must be signed and initialed (see below).
- **Travel Expense Form**
 - A Travel Expense Form is to be completed by the Club Sports Business Manager
 - The club/individual(s) seeking reimbursement will then sign and initial the Travel Expense Form to show that they are in agreement with the amount to be reimbursed and the reason
 - Only items listed on the Travel Form will be eligible for reimbursement
- **Hotel Folio**
 - Always request an itemized hotel receipt (folio) upon check out and turn into the Club Sports Business Manager
 - When an individual is seeking lodging reimbursement, the hotel folio must be in their name
 - IE: Whoever will be paying for the room, their name needs to be on the hotel folio
 - “Zero” balance must be shown to indicate that payment has occurred and how it was paid for
 - When making reservations, check to see if a direct billing is possible (see below)
- **Air Travel**
 - The Business Office can purchase tickets using money allocated to the club
 - It is the responsibility of the club to ensure that they have enough funding available to cover the cost of the airfare
 - Contact the Assistant Director for Sports & Competition if the club would like the Business Office to purchase airline tickets for the club
- **Bank Statement**
 - A bank statement is needed to show all proof of purchases (i.e., lodging, equipment, entry fees)
 - Only the club member’s name will need to appear on the statement
 - White or black out the account number
 - If the club member’s name does not appear on the statement, bring it in to the Club Sports Business Specialist and write the member’s name at the top. He/she will initial to acknowledge that the bank statement is the individual seeking reimbursement.
- **Contracts**
 - Clubs and their club members should NEVER sign into any agreement. **Student Organizations do not have the authority to enter the University into a binding agreement.**
 - Contracts are only necessary when renting a facility, other rental space, or equipment
 - When renting equipment, please try to use A-1 Rentals, Lindsey Rentals, or US Rents It as the University has contracts set up with these companies
 - Inform the facility/company ahead of time that a contract is necessary
 - Contract must be in place before the event(s) has occurred
 - The Business Office will complete the contract as well as obtain any necessary signatures
 - If the usage time or total cost is unknown, the contract will be filled out “not to exceed ‘X’ amount”

- When renting equipment, a requisition must be completed by the Business Office and then Accounting will issue a Purchase Order
- When renting a facility or rental space, an agreement must be set up by the Business Office. The vendor will have to sign two copies of the agreement and both must be returned to the Business Office.
- The Assistant Director for Sports & Competition will notify the Business Office when an agreement or requisition needs to be completed
- If you have any questions, please see the Assistant Director for Sports & Competition or the Business Office

Bank Accounts

Club Sports are allowed to have one bank account at the US Bank located in the Student Center. In order to open an account, the organization must obtain a Tax Identification Number from the IRS. See Club Sports Business Manager for more information.

- **Bank Account Regulations**
 - Organizations may not have more than one bank account
 - Organizations may not have accounts at other financial institutions other than the US Bank at the Student Center
 - The Club President and Club Treasurer must be signers on the account
 - These are the only members that are allowed to access US Bank club funds
 - Other members may not use the debit card, write checks, etc.
 - During officer transition, current/prospective presidents and treasurers should meet with US Bank representatives to arrange account signee transfers
 - An approval letter signed by the Assistant Director for Sports & Competition is needed for all changes to the signers on the account

TIER SYSTEM

Through an incentive based points system that encourages competition, involvement, and inclusivity, clubs may accrue points through the below mentioned categories that will result in yearly final standings. Tier Levels are for the time period of July 1st – June 30th of each academic year.

Tier Point Categories

- Compliance - Administrative Requirements - meeting attendance, form submissions, fundraising, branding, risk management
- Competition - Homes & away competitions, wins, tournament placements, regional/national participation, postseason honors
- Local/MU Involvement- Volunteer work, MU event attendance, University event participation
- MizzouRec Involvement - MizzouRec volunteer work, student employment, Club Sports event attendance, program participation
- Miscellaneous - MizzouRec programming that have associated costs, conduct issues (team and/or individual), facility/storage space organization and cleanliness, additional fundraising, any other items not covered in other categories

Tier Levels

- Tier 1 – Clubs #1-5 in final standings
- Tier 2 – Clubs #6-12 in final standings
- Tier 3 – Clubs #13-20 in final standings
- Tier 4 – Clubs #21-28 in final standings
- Tier 5 – Clubs #29-33 in final standings

- Probation – Clubs finishing with (-) points on the year; 2 consecutive years of probation may result in loss of club status
- Appeals – A club may appeal their final Tier Standing to the MCSF Executive Committee

New Clubs’ Place in Tier System

- New clubs that join in the middle of the year may earn points towards Tier Standings. Those points will be doubled (if joined at semester), to determine which tier they will be in the following year. However, they will receive no more than half of the eligible funding.

On-Campus vs. Off-Campus Expectations

Although the distinction between on and off-campus clubs will not impact the amount of funding they will receive, clubs will be broken up by where they practice/compete. There are different expectations for both types of clubs. On-Campus clubs are permitted to practice on MizzouRec property free of charge and thus, should have higher expectations than those clubs who are charged to practice/compete off-campus.

- On Campus
 - Roster checks at practice to ensure Hold Harmless forms are filled out
 - Storage spaces are kept clean and organized
 - Facility space is used efficiently during allotted practice time
 - Events are scheduled efficiently and clubs assist with setup and breakdown
- Off Campus
 - Practice attendance submission
 - Semester long practice schedule is kept on file with Club Sports office
 - Semester long game schedule is kept on file with Club Sports office
 - Clubs maintain constant communication about operations off-campus

New Club Probationary Period

Every new club sport to the Mizzou Club Sports Federation is required to participate in a probationary period lasting no less than one semester beginning from the time they are recognized as a club sport student organization. During this probationary period these club sports are not eligible to receive University funding, however they can apply for a higher tier level (See Tier Application Process below).

This probationary period is mandatory to show that the club is functioning in an organized manner, following the club constitution and bylaws and that it has maintained or improved membership numbers. In short, each club must show that it can function smoothly without receiving financial aid from the University. Once the club has successfully completed the minimum probationary period, they will be eligible to request and receive University funding following the allocation policies and procedures of the Mizzou Club Sports Federation.

Transition from ORG to Club Sports

1. ORG shares any information received (via application process) from prospective organizations wishing to become Club Sports with Mizzou Club Sports Federation (MCSF) (includes all Pro Staff and Executive Committee)
 - ORG also shares information received from any high-risk organizations with RIM, Assistant Director for Sports & Competition is copied
2. A risk review is conducted by RIM (this is an e-mail sent from ORG/Coordinator for Student Organizations to RIM – see attached “RE: Prospective Organization...” for an example)
3. ORG works with the organization, MCSF, and RIM to determine if the Club Sports category (which the organization has requested) is the best option for the organization
4. Findings from step 3 are shared with the organization and an application is completed or additional information is added to an already submitted application
 - If RIM and MCSF agree that the Club Sports category is not the most appropriate, ORG will encourage the organization to select “Recreational” or another applicable RSO category

- The prospective organization has the right to submit their application as a Club Sport despite any recommendations/encouragement they have otherwise received
5. SA Committee makes a recommendation based on the above
- The student’s application, in addition to RIM and MCSF’s recommendations, are shared with the committee. In the past, the committee has not recommended an organization for recognition as a Club Sport without explicit permission and vetting from MCSF and RIM.
 - Conditional approvals to recommend organizations have happened in the past. The organization is responsible for meeting all of these conditions before they can receive recognition.
